

About: Every project has a social-emotional skill focus. Kids learn about the skill then apply that skill throughout the project.

- **Creativity** - We imagine new and original ideas.
- **Curiosity** - We ask questions to seek answers.
- **Empathy** - We seek to understand others feelings and perspectives.
- **Kinship** - We build relationships and community.
- **Courage** - We stand up to adversity and take action in the face of challenge!
- **Learner** - We seek to learn and grow.
- **Impact Awareness** - We are aware of how our actions have an impact on ourselves, others and the world.

Pro Tips:

- Teaching the Life Habits before starting projects allows students to be prepared for learning during the project.
- After teaching each word, allow students to participate in an activity for practicing that Life Habit.
- Place cards in an easy to see space.

Plan for instruction:

1. Introduce the word and definition.
2. Read a book that illustrates the Life Habit in a story. Click on each Life Habit above for a list of related books.
3. Practice the Life Habit through an activity.
4. Post the word in the classroom.

Creativity

We imagine new and original ideas.
